Education

2023 INTERNATIONAL ENGINEERING EDUCATOR, ING.PAED.IGIP (IGIP, AUSTRIA)
Innova HiEd Academy

2012 POSTDOCTORAL RESEARCHER,
Institut de la vision, Fondation Voir & Entendre,
UNIVERSITÉ PIERRE ET MARIE CURIE - UMPC - PARIS VI, FRANCE

2010 DOCTEUR EN INFORMATIQUE, mention très honorable (Summa cum Laude)
Institut des Systèmes Intelligents et de Robotique - ISIR
UNIVERSITÉ PIERRE ET MARIE CURIE - UMPC - PARIS VI, FRANCE
ADVISORS: Domingo Mery (Pontificia Universidad Católica de Chile, Chile),
Xavier Clady, (Université Pierre et Marie Curie, France)
Ryad Benosman (University of Pittsburgh, USA)

2010 DOCTOR IN COMPUTER SCIENCE
Department of Computer Science
PONTIFICIA UNIVERSIDAD CATÓLICA DE CHILE

2008 MASTER OF ENGINEERING
Department of Computer Science
PONTIFICIA UNIVERSIDAD CATÓLICA DE CHILE

2004 MASTER IN INFORMATION TECHNOLOGY, Highest Honors
Department of Information Engineering
UNIVERSIDAD DE SANTIAGO DE CHILE

2004 ENGINEERING IN INFORMATION TECHNOLOGY, top of the class.

2002 BACHELOR IN ENGINEERING SCIENCES
Department of Information Engineering
UNIVERSIDAD DE SANTIAGO DE CHILE

Academic responsibilities

2026 General coordinator of Introduction to Engineering. Faculty of Engineering and Science. Universidad Adolfo Ibáñez (Since Ago. 2024, March, 2025)

2024 Director of Academic Affairs, Faculty of Engineering and Science. Universidad Adolfo Ibáñez (Since Ago. 2024, March, 2025)

2023 Co-director of Doctorate in Data Science, Faculty of Engineering and Science. Universidad Adolfo Ibáñez (Jan, 2023~Ago,2024)

2020 Director of Infrastructure, Faculty of Engineering and Science. Universidad Adolfo Ibáñez (Jan, 2020~Jan, 2021)

2018 Head of the Information Engineering Department. Faculty of Engineering and Science. Universidad Adolfo Ibáñez (2018-2020)

2018 General Coordinator of the Information Engineer Accreditation report at UAI presented to the National Accreditation Commission (CNA-Chile, 2017~2018)

2014 Academic Director of Master of Science in Engineering in Information Technology. Faculty of Engineering and Science. Universidad Adolfo Ibáñez (2014~2018)

2012 Founder of the Computer Vision Laboratory. Escuela de Informática y Telecomunicaciones, Faculty of Engineering . Universidad Diego Portales.

Educational experience

INTERNSHIPS

2012 Postdoctoral researcher, Institut de la vision, Fondation Voir & Entendre, Université Pierre et Marie Curie (Dec'12 - Jan'13), Paris, France.

08-09 Doctoral student, Institut des Systèmes Intelligents et de Robotique (ISIR), Université Pierre et Marie Curie (Sorbonne Université), Paris. (Jan-Dec).

2008 Student Researcher, Commissariat à l'Energie Atomique (CEA), Centre de Fontenay-aux-Roses, Paris (May).

04-07 Doctoral student, Department of Computer Science (DCC), Pontificia Universidad Católica de Chile (PUC), Chile

2007 Pacific-Rim Symposium on Image and Video Technology (PSIVT).

VISITING PROFESSOR

2024 Facultad de Ciencias de la Educación y Psicología, Cordoba, Spain. January 7 th to February 9th, Project: RRReMaker. Research and Innovation Staff Exchange (RISE). H2020-MSCA-RISE-2020, Project coordinator. Prof. César Gonzalez-Martín.

2022 Facultad de Bellas Artes, Granada, Spain. January 25th to February 27th, Project: RRReMaker. Research and Innovation Staff Exchange (RISE). H2020-MSCA-RISE-2020, Project leader: Prof. Ana García Lopez.

2020 Coding Dojo Silicon Valley, campus San José, California, USA. February 29th to March 7th. UAI-TI short-term visitors.

2019 Facultad de Ingeniería, Universidad Panamericana (UP), Campus Bonaterra, Mexico. Jun, 15th-28th. VP of Research, Dr. Ramiro Velazquez.

2018 Facultad de Ingeniería, Universidad Panamericana (UP), Campus Bonaterra, Mexico. Jun, 26th-July 7th. VP of Research, Dr. Ramiro Velazquez.

2015 Institut de Biologie Structurale (IBS), UMR 5075, Grenoble, France. December 11th to 18th, FERMI Project. Dr. Leandro Estrozi.

2015 Pontificia Universidad Católica del Perú, Informatics Engineering Department, Pattern Recognition and Artificial Intelligence Research Group, Lima, Peru. September 16th to September 21th, FERMI Project. Prof. Dr. Cesar Beltrán.

2014 Institut de Biologie Structurale (IBS), UMR 5075, Grenoble, France. November 23th to 28th, FERMI Project. Dr. Leandro Estrozi.

2014 Pontificia Universidad Católica del Perú, Informatics Engineering Department, Lima, Peru. October 6th to October 10th, FERMI Project. Prof. Dr. Cesar Beltrán.

2014 University of São Paulo, Physics Institut, Scientific Computing Group. São Carlos, Brazil, April 1st to April 6th, 2014. FERMI Project. Prof. Dr. Odemir Martinez.

Fellowships and Scholarships

2012 Postdoctoral Fellowship granted by the French Government, (Campus France and Institut Français Chile).

2009 Residence DIPEI Fellowship. Pontificia Universidad Católica de Chile. 1st and 2nd semester.

2007 Collège Doctoral Franco-Chilean Scholarship to finish the Doctoral Thesis on jointly supervised PhD at University Pierre et Marie Curie - Paris VI granted by CONICYT and the Council of Chilean University Rectors.

2007 DIPEI Postgraduate Direction Fellowship granted by Pontificia Universidad Católica de Chile for cursing International studies. Nov.

2005 Microsoft Study Scholarship +MAS. Program, 5 stars NET. April.

2005 1st and 2nd semester Registration Scholarship. Pontificia Universidad Católica de Chile.

2005 National Graduate Student Scholarship for Doctoral Studies in Chile granted by the Chilean National Commission of Science and Technology - CONICYT.

2004 DIPUC Assistant Fellowship. Pontificia Universidad Católica de Chile. 2nd semester, August.

2002 Master Scholarship in Information Technology for academic excellence granted by the Department of Information Engineering - DIINF. USACH

Academic honors, and Awards

2025 Best Teacher Award of Master in Data Science, Faculty of Engineering and Science. Universidad Adolfo Ibáñez (cohort 2023).

2025 Best Teacher Award of diploma on Data Science, Faculty of Engineering and Science. Universidad Adolfo Ibáñez (cohort 2024).

2024 Best Teacher Award of the Master in Data Science, Faculty of Engineering and Science. Universidad Adolfo Ibáñez.

2024 Outstanding Academic Performance of the Faculty of Engineering and Science. Universidad Adolfo Ibáñez.

2023 Best Teacher Award of the Master in Artificial Intelligence (cohort 2021/1), Faculty of Engineering and Science. Universidad Adolfo Ibáñez.

2023 Acknowledgment for contributions to the Faculty of Engineering and Science in the role of Director of Infrastructure (2020-2021). Universidad Adolfo Ibáñez.

2021 Best Teacher Award of the Master in Data Science (cohort 2019), Faculty of Engineering and Science. Universidad Adolfo Ibáñez.

2014 Winner of the Intel Galileo University Donation program (Sept).

2012 Best Faculty Teacher Award of the Faculty of Engineering, Universidad Diego Portales, UDP.

2012 Best Teacher Award of the Escuela de Informática y Telecomunicaciones, Faculty of Engineering, Universidad Diego Portales, UDP.

2011 Best Teacher Award of the Escuela de Informática y Telecomunicaciones, Faculty of Engineering, Universidad Diego Portales, UDP.

2010 Teacher Leadership Award of the Faculty of Engineering at Universidad Diego Portales, UDP.

2010 Doctoral dissertation received the highest honors (mention très Honorable) from University Pierre et Marie Curie, UPMC - Paris VI (France).

2007 Best Paper Award on Computer Vision and Application in Pacific-Rim Symposium on Image and Video Technology – PSIVT. Dec.

2004 Master thesis received the highest honors from Universidad de Santiago de Chile, USACH.

2004 First place in Engineering in Information Technology. Universidad de Santiago de Chile, USACH (among 98 students).

Professional Projects

2026 Tensor: "LIDARAR mining optimization tools". Role: Reseach director, Eureka Project 24CVEK264744 (since 2025).

2026 WilaTech: "Sistema de monitero de desgaste de escobilla de grafito". Role: Architect solution engineer/developer (since 2024).

2020 IOLink: "Herramienta de segmentación de microscopia de peces y órganos internos". Role: Architect solution engineer (80k USD).

2017 Walmart-LIDER. "Monitoreo remoto basado en IoT": Achievements: Desarrollo de sistema de monitoreo en máquinas de congelado, medición de temperatura, humedad y puertas, y Sistema de monitoreo en sala de servidor: Medición de corriente, temperatura, humedad", Role: Architect solution engineer /developer (15k USD).

2017 Innova Chile (CORFO). "Desarrollo del prototipo de un sistema inteligente de reconocimiento de imágenes para la optimización del proceso de molienda SAG de mineral a través del uso racional de medios de molienda", Role: Architect solution engineer /developer. Company: EM-Elecmetal. Developers: IO-link. Grant no. 16ITE1-70889 (120k USD).

2015 Innova Chile (CORFO). "Mejora Significativa del proceso de producción de repuestos mineros, mediante la incorporación de un sistema en línea de control para su fabricación". Role: TI engineer designer / developer. Achievements: Desarrollo de una plataforma en línea para el monitoreo de la producción. ($14k USD)

2015 Innova Chile (CORFO). “Desarrollo de equipo de medición, registro y alerta de desgaste de escobillas de grafito en monitores de corriente continua para equipos mineros de alta criticidad operativa”. Role: Engineer developer. ($12K USD).

Thesis Supervision

PHD CURRENT STUDENTS

1. 2024. Luis Oliveros: “Analizar el comportamiento del mecanismo de atención de los Visual Transformers y evaluar su rendimiento en relación a la atención visual humana.”, Director: Miguel Carrasco, Doctorado en Data Science, Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez (UAI).

ALUMNI PHD

2. 2026. Jorge León: “Condicionando la generación de imagen con audio”, Director: Miguel Carrasco (UDP), Co-Director: Andrés Peters (UAI). Doctorado en Data Science, Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez (UAI).

ALUMNI. MASTER’S DEGREE

1. 2025. Bruno Perry: “Evaluación comparativa de algoritmos de reconocimiento de actividad sospechosa”, Master of Science in Data Science (MSDS), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
2. 2025. Sebastián Novoa: “Comparación de la percepción y atención humana en visión por computador utilizando Vision Transformer”, Master of Science in Data Science (MSDS), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
3. 2024. Abril Karpuj: “Detección de patrones en representaciones artísticas asociados a posibles trastornos de salud mental en los artistas: Un análisis comparativo de estilos de arte utilizando aprendizaje profundo”, Master of Science in Data Science (MSDS), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
4. 2024. Antonio Villarroel: “Modelamiento de profundidad de sentadilla para arbitraje asistido en powerlifting”, Master of Science in Data Science (MSDS), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
5. 2024. Matías Ramírez: “Análisis de las características y elementos visuales de imágenes basado en Deep Learning para reconocer y predecir las emociones que transmite una imagen publicitaria”. Master of Science in Data Science (MSDS), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
6. 2024. José Aranda: “Comparación de atención visual: ViT y humana”, Master of Science in Data Science (MSDS), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
7. 2024. Mauricio Gahona, Jonathan Toro, Alejandro Truan, Luis Manríquez: “Diseño y construcción de un predictor granulométrico para control de calidad en operaciones mineras”, Master of Artificial Intelligence, (MIA), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
8. 2023. Raúl Dastres: “Generación automática de obras artísticas mediante el análisis de las emociones utilizando Generative Adversarial Networks”. Magíster en Ciencias de la Ingeniería (MCI), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez
9. 2023. Constanza Fainberg: “Análisis de conjunto alternativo para mejorar rendimiento de modelo de reconocimiento facial invariante a la edad”, Master of Science in Data Science (MSDS), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
10. 2023. Joaquín Alvarado: “Obtención de superficies de objetos 3D a través de imágenes RGB-D”. Master of Science in Data Science (MSDS), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
11. 2023. Juan Pablo Benavente, Daniel Franzani, Pietro Quercia: “Diseño y evaluación de un modelo de detección de portonazos mediante Redes Neuronales Convolucionales”. Master in Artificial Intelligence (MIA), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
12. 2023. Cristóbal Portilla: “Análisis del comportamiento geométrico del crecimiento de colonias bacteriana”. Master of Science in Data Science (MSDS), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.

13. 2023. José Castillo: “Detección automática de la bacteria Beggiatoa en fondos marítimos basados en tratamiento digital de videos por medio de Redes Neuronales Convolucionales”. Magíster en Ciencias de la Ingeniería (MCI), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
14. 2022. Germán Oviedo: “Análisis del uso del color en las representaciones visuales en el contexto de la pandemia de la COVID-19 para la detección de lase mociones utilizando técnicas de minería de datos”, Magíster en Ciencias de la Ingeniería (MCI), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
15. 2021. Ingris Figueroa, Manuel Ramos, Nicolás Rodríguez y Eduardo Oñate: “Aplicación de redes neuronales en la inspección de áreas de extracción en minería subterránea”, Master in Artificial Intelligence (MIA), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
16. 2021. Luis Medinelli, Juan Mercado, Paula Leitao: “Aplicación de técnicas de Deep Learning en el reconocimiento de emociones humanas en imágenes de baja resolución”, Master in Artificial Intelligence (MIA), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
17. 2021. Felipe Ortiz: “Optimización de flotación de minerales utilizando algoritmos de inteligencia artificial”, Master in Data Science (MDS), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
18. 2015. Juan Pablo Meneses: “Gestión y Monitoreo de EPP para la construcción”, Magíster en Gestión y Emprendimiento Tecnológico (MGET), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
19. 2014. Cristian Larenas: “Monitoreo Animal en tiempo real a través de sensores”, Magíster en Gestión y Emprendimiento Tecnológico (MGET), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.
20. 2014. Enrique Cáceres: “Interacción entre personas con discapacidad motriz y aplicaciones para el desarrollo de habilidades cognitivas mediante dispositivo de seguimiento ocular”, Master in Computer Engineering, Escuela de Informática y Telecomunicaciones. Universidad Diego Portales (UDP).
21. 2013. Jorge González: “Guía de Televisión Remota para GTD Imagen”, Magíster en Gestión y Emprendimiento Tecnológico (MGET), Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez.

ALUMNI. BACHELOR’S DEGREE

22. 2026. C. Martínez: “Diseño, implementación y evaluación de un asistente virtual multicanal con retrieval-augmented generation”, Ingeniería Civil en Informática y Telecomunicaciones, School of Information and Telecommunications, Universidad Diego Portales.
23. 2026. P. Lores: “Desarrollo de Scripts del tipo ETL para la integración de datos en plantas de tratamiento de agua”, Ingeniería Civil en Informática y Telecomunicaciones, School of Information and Telecommunications, Universidad Diego Portales.
24. 2025. N. Chirino: “Aplicación de etiquetado semi-automático de videos para entrenamiento de modelos de visión computacional”, Ingeniería Civil en Informática y Telecomunicaciones, School of Information and Telecommunications, Universidad Diego Portales.
25. 2022. T. Wachter: “Extracción de emociones en obras artísticas mediante Redes Neuronales Convolucionales”, Ingeniería Civil Informática. Universidad Adolfo Ibáñez.

INTERNATIONAL PROJECTS

1. Eureka + CORFO: Role: Research director, Title “LIDAR-AR: a real-time construction monitoring tool for mining and civil tunnels and slope construction progress using augmented reality and lidar technology” (2025-2026). (Members: Chile, Spain): Grant: 24CVEK- 264744 (more info at: https://eurekanetwork.org)

2. RRReMaker. Research and Innovation Staff Exchange (RISE). H2020-MSCA-RISE-2020. Horizon 2020 Marie Skłodowska-Curie (2021-2024). (Members: Spain, Italy, France, Chile, Greece, Perú, Switzerland, Malta). Principal Researcher (in Chile), researcher associate. The main objective of this project is to develop an artificial intelligence (AI) based maker platform for the design and production of handcrafted, rapid prototyped and reconditioned products, based on the availability of used goods and recyclable waste collected, getting inputs from, and connecting together, digital manufacturers and traditional crafts, designers/creative companies and green companies, establishing a new hybrid managing model based on the communities of knowledge, ecodesign and democratization invention, integrating orange, sharing and circular economy. URL https://www.rrremaker.com/

3. STIC-AMSud. Title: “FERMI: Feature Extraction and Recognition Methods for Biological Images Understanding”. (2014-2016). (Members: Peru, Brazil, France and Chile). STIC-AmSud regional project. Principal Researcher (in Chile). This project aims at developing of new algorithms, techniques, and tools to process biological digital images to detect and recognize patterns into the images. An important issue is that images can be acquired from different sources (micrography, electronic microscopy, digital images, microarrays, and others) and can represent various biological organisms and natural objects. With this project we will join the expertise of the research groups involved from the Pontifical Catholic University of Peru (Peru), University of Sao Paulo (Brazil), Pontifical Catholic University of Chile (Chile), Adolfo Ibáñez University (Chile) and the Institut de Biologie Structurale at Grenoble (France).

4. BRAHMA. UPMC-ISIR, France. (2008-2009). Role: Doctoral student researcher. Title: “Utilisation de la coordination oeil-main pour la prédiction d'un geste de préhension”. This project aims to develop a novel approach to recognize the user's gesture based on the visual information captured from the user perspective. Generally, most motion recognition methods capture user's movements by tracking body parts. Instead, I developed a system that captures the scene using the user's gaze, and the grasp movement. My fellowship was funding by CONICYT – Colegio Doctoral Franco-Chileno under grant no. 21050185 and by the School of Engineering at Pontificia Universidad Católica de Chile.

CHILEAN PROJECTS (CORFO, FONDECYT, FONDEF, FIC-REGIONAL)

5. FIC-Regional (2020-2022). Role: Co-Director: "Transferencia de Tecnología Inteligente para la seguridad en la pequeña minería subterráea del Distrito Minero 55 Chancón". Main Director: Miguel Herrera Marchant, Grant: IDI 40017833-0.
6. CORFO (contratos tecnológicos) (2018-2020). Role: Technical Researcher/developer: "Desarrollo de modelos predictivos usando machine learning para la toma de decisiones en la producción de arándanos bajo condiciones actuales y proyectadas de cambio climático". Project supported by HORTIFRUT-UAI. Grant: 17COTE83081.
7. UAI-2030 [CORFO]. (2018). Role: Co-director, researcher: "Determinación de curva granulométrica de suelos a través de análisis óptico en profundidad". Project supported by UAI-Built.
8. FONDEF Idea-CONICYT (2013-2015). Role: Technical Researcher: "Desarrollo y evaluación de algoritmos de data mining para la predicción del riesgo de crisis en pacientes ambulatorios de un hospital pediátrico". Main director: Sebastian Ríos, University of Chile. Grant: CA13i-10300.
9. FONDECYT-CONICYT (Initiation into research competition) (2011-2014). Role: Principal Director: "Characterization of reach-to-grasp movements based on active perception systems". This project proposes a novel approach to detect reach-to-grasp movements by means of computer vision techniques. My solution fuses two viewpoints, the first of which is obtained from an eye-tracker device capturing the user's head perspective and the second viewpoint is captured by a wearable camera attached to the user's wrist. Project supported by CONICYT under grant no. 11100098. ($102.000 USD)
10. DCC-PUC, Chile. (2007-2008). Role: Student researcher (PhD): "Multiple View Visual Inspection". This project aims to develop a machine to evaluate the quality of wine glass bottles. My research consists in generating a robust multiple view inspection scheme in a non-calibrated way. The main motivation is the development of new computer vision techniques that may be applied as quality control methods to different manufactured products. Project partially supported by CONICYT ACT-32 and the School of Engineering at Pontificia Universidad Católica de Chile.
11. DCC-PUC, Chile. (2005-2006). Role: Student researcher (PhD): "Tracking of potential defects in metal castings". This project aims to develop an algorithm to classify potential defects from real defect using the epipolar geometry in multiples views. Project partially supported by CONICYT under grant no. 1040210.
12. DIINF-USACH, Chile. (2003-2004). Role: Student researcher (M.Eng): "Segmentation of welding defects". This project aims to develop an algorithm capable of segmenting welding defects using robust digital image processing techniques. Project partially supported by CONICYT under grant no. 1040210.

SEMINARS, LECTURES, WORKSHOPS

2025 Jury member, Digital Country Summit Hackathon 2025 by EY, in collaboration with Las Condes - Smart City, Chile, Sept, 30.

2025 Specialist expositor, "Computer Vision Trends", organized by EY (Ernst & Young) at Hackaton Summit País Digital 2025, Chile, Sept. 15.

2025 Expositor, "Coloquios: Doctorado en Psicología: "Detection of Emotions in Artworks Using a Convolutional Neural Network", Universidad de Talca, Facultad de Psicología. Talca, Chile, April 2nd.

2024 Expositor, "Feria de Matemáticas y Tecnología", Workshop: "Connecting the Future: Introduction and Practice with the Internet of Things", Colegio Santa Úrsula, Vitacura Santiago, Chile. Jul, 23.

2024 Expositor, "Buenas Prácticas docenets". Jornada Docencia en Ingeniería y Ciencias UAI. Universidad Adolfo Ibáñez, Chile, Feb, 29

2023 Expositor, "Detection of Emotions in Artworks", Escuela Predoctoral 2023, Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez, Chile, Oct, 11.

2022 Expositor, “Innovando con datos, Fortaleciendo la fiscalización pública”, Seminario: Análisis de los informes de carga para encontrar embarcaciones de pesca fraudulenta, Escuela de Gobierno, Universidad Adolfo Ibáñez, Chile. Aug, 10.

2018 Expositor, “II Feria de Robótica”, Charla: Visión Humana como sistema de control, Instituto Nacional, Santiago, Chile. Nov 30.

2018 Invitado Panel Curricular, 7° Congreso TIC: “Arquitecturas tecnológicas habilitantes para el desarrollo económico del país”, Universidad Diego Portales. Nov 21.

2018 Expositor, “1er Tribunal Ambiental”, Proyectos Aplicados con Visión Artificial, Facultad de Ingeniería y Ciencias, UAI. Nov 13.

2018 Workshop, “Primer Congreso de Realidad Virtual, Mixta e Inmersiva en Santiago de Chile”, Visión Humana como sistema de control, organized by VAIR Tech. Oct, 11.

2017 Workshop, “Genuino Day 2017”, Human Computer Interaction, organized by Faculty of Engineering and Science, Universidad Adolfo Ibáñez, Viña del Mar, March 31.

2016 Expositor, Ciclo de Charlas: Estadística Estratégica para la toma de decisiones, “Análisis en múltiples vistas. Aplicaciones y Metodologías”. Facultad de Ingeniería y Ciencias, Universidad Adolfo Ibáñez, Sep 29.

2016 Workshop, “Genuino Day 2016”, Human Computer Interaction, organized by Faculty of Engineering and Science, Universidad Adolfo Ibáñez, April 4.

2016 Expositor, 2nd Active Learning in Engineering Education Workshop, organized by Faculty of Engineering and Science, Universidad Adolfo Ibáñez, Jan 14-15.

2015 Expositor, Semana de la Docencia, organized by the Centro de Innovación y Aprendizaje, Universidad Adolfo Ibáñez, Oct. 30.

2013 AlDyNet, Workshop on Algorithms and Randomness, organized by the Faculty of Engineering and Science, (UAI) in collaboration with INRIA Sophia-Antipolis (France), Universidad Adolfo Ibáñez, Chile, Nov, 21.

2012 Workshop, Introduction to Image Processing, organized by the student branch of IEEE-UDP, Faculty of Engineering, Universidad Diego Portales, (total time 7.2Hrs) Oct, 9-30.

2012 Lecturer, Computer Vision Seminar, Department of Computer Science, School of Engineering, Pontificia Universidad Católica de Chile. Oct., 04.

2012 Lecturer, Programa de Postítulo en Informática y Gestión (INGES), Pontificia Universidad Católica de Chile. Jun, 28, 2012.

2009 Lecturer, Semana de Ingeniería, Universidad Diego Portales, Chile. Oct, 6.

2009 Expositor, First Postgraduate Engineering Student (CEPIUC), Pontificia Universidad Católica de Chile, Chile. May, 29.

2006 Expositor, First Academic-Entrepreneurial Meeting on Computer Vision in Nondestructive Tests (VCEND). Pontificia Universidad Católica de Chile, Sept. 13.

WORKSHOPS AND TRAINING

2024 Plan de Formación de Transición para Pares Evaluadores de Procesos de Acreditación de Posgrado 2023. National Accreditation Commission (CNA), Jan. 2024.

2023 Active learning and learning sequences. Prof. Francisco Ayala Aguirre, TEC. Monterrey. July, 2023.

2023 International Engineering Educator, Ing.Paed.IGIP, Innova HiEd Academy, Facultad Regional Buenos Aires, Universidad Tecnológica Nacional, UTN. Argentina (two year program).

2020 Coding Dojo, Silicon Valley, San José, California, USA. February.

2011 Innovative Teaching for Deeper Learning, Harvard University, organized by LASPAU. Cambridge. USA. April.

2007 Student training assistantships. Centro de Desarrollo Docente de la Vicerrectoría Académica. Pontificia Universidad Católica de Chile. May.

2006 Industrial Robotics Workshop. Parallax, RAMBAL. Chile (10 hrs).

2005 dotNET. Microsoft 5 Star program at the Pontificia Universidad Católica de Chile. April to July.

2005 Training in Scientific and Technical Writing. Prof. Jean-Luc Dumont -JL Consulting. Pontificia Universidad Católica de Chile. January.

ELEMENTARY AND HIGH SCHOOL EDUCATION

1994 Colegio San Ignacio A.O. (Santiago, Chile)
Elementary and High School Diplomas (1983-1994)

1994 Award for Excellence in Ignatian Spirit. Colegio San Ignacio (High School).

1993 Award for Excellence in Ignatian Spirit. Colegio San Ignacio (High School).
